ADVANCED RESTORATIVE CONTINUUM TYPODONT PROGRAM

including

CLINICAL PHOTOGRAPHY

FEBRUARY 2010

PROGRAM OVERVIEW

Advanced Restorative Continuum Typodont Program & Clinical Photography

The California Center for Advanced Dental Studies (CCADS) would like to invite you to a specialized, hands-on program taught in a relaxed learning environment. Using hand pieces and instrumentation on a typodont model, this course is designed for those who are beginners to the theory and practice of restorations using AACD/BACD principles.

You will learn from internationally recognized educators, Dr. Andrew Chandrapal and Dr. Ken Harris:

- Essential principles of advanced aesthetic restorations .
- Techniques for setting up the arch form of a crowded, anterior veneer case.
- Step-by-step preparation, temporization and re-contouring techniques.
- AACD standard clinical photography of patients, presented by Laura Horton.

SATURDAY, FEBRUARY 20, 2010

9:00 a.m. - 5:00 p.m.

£295

WHO IS CCADS?

The California Center for Advanced Dental Studies

The California Center for Advanced Dental Studies (CCADS) is an internationally recognized leader in worldwide education, providing continuing dental education programs ranging from study groups to live patient hands-on continuums. The CCADS program teaches the fundamentals of achieving predictable clinical success as well as the essential elements needed to create a successful practice. CCADS is a not-for-profit organization aiming to provide high quality education to dental professionals, and is the only organization to offer full scholarships to dentists for advanced post-graduate education. The scholarships are fully funded by our benefactors, including Frontier Dental Laboratories, Argen, Biolase, Ivoclar Vivadent, Velopex, and Zenith Dental/DMG, and are worth £18,000.

CCADS UK aims to provide education delivered to the UK specific market in such a way that it conforms with UK standards and current thinking of structured treatment planning.

DR. ANDREW CHANDRAPAL, BDS, MFGDP (UK) DPDS (BRIS)
Mentor/Program Director

Andrew Chandrapal practices in Bourne End, Buckinghamshire, where he maintains an entirely private client base in general dentistry focusing on functional aesthetics, bonding and management of wear. He has participated in a number of advanced continuing education courses both within the USA and the UK. Andrew has trained to gain knowledge in all aspects of restorative disciplines which has led to focuses on periodontal-restorative interfaces and enamel/dentine bonding with etched porcelains.

Dr. Chandrapal is a long standing member of the American and British Academies of Cosmetic Dentistry, The L.D Pankey Institute, the International Team for Implantology and the Association of Dental Implantology. He is the Program Director and a mentor for the California Center for Advanced Dental Studies (CCADS), sits on the BACD public relations media committee, is a media representative for the British Dental Association and is on the editorial board for the publication, "Private Dentistry".

DR. KEN HARRIS, BDS, MFGDP (UK)
Mentor/Clinical Director

Dr. Ken Harris maintains a fully private practice in Sunderland in the north east of England focusing on cosmetic dentistry and complex reconstruction cases. He is the Clinical Director and a mentor for the California Center for Advanced Dental Studies (CCADS), and has for many years taught cosmetic dentistry for the University of Newcastle Upon Tyne. He is an accredited member of the BACD, a sustaining member of the AACD and holds full membership of the BAAD. Ken has spent time with Newton Fahl in Brazil, and is the first UK graduate of the Kois Center in Seattle, having completed the nine stage continuum studying with Dr. John Kois in Seattle in the summer of 2008.
