

# Dani is all smiles

**MODEL** Dani Lawrence's immaculate smile really is one-in-10,000.

The 23-year-old, who appeared on the hit television series *Britain's Next Top Model*, helped a North East cosmetic dentist mark the 10th anniversary of his practice.

Dr Ken Harris marked the milestone birthday by fitting his 10,000th veneer.

Dani, his patient, had a set of veneers fitted by Riveredge Cosmetic Dentistry, in Sunderland, which not only gave her a new smile, but also ended years of pain in her teeth.

The Riveredge practice was set up by Dr Harris a decade ago and, in that time, it has grown to become one of the most respected in

the UK. "I have always had a lot of trouble with my teeth, which started off when I still had all my baby teeth at ten," said Dani.

"Nobody knew why at the time and I ended up having to get them taken out, and I started secondary school with only my two front teeth."

Veneers are very thin porcelain covers that are bonded to the tooth underneath, so they don't come off.
